Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

The Examiner acknowledges the applicant's Amendment filed May 10, 2004 in response to the Office action made on Feb 25, 2004.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 2, 5, 8, and 16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1 and 5 recites the newly added limitation wherein the axially and radially rigid tubing prevents buckling which "virtually eliminat(es) significant contact with the interior of the tubing and essentially eliminat(es) friction over the tubing length". The subject matter concerning the elimination of the contact and the friction raises new matter issue since the specification as originally filed does not support the subject matter. Rather, the specification, on page 16, lines 4-6, describes the "elimination of this buckling further reduces contact of the cable with the inner diameter of the tube and serves to further minimize friction on the cable." In other words, the buckling elimination minimizes the contact and the friction rather than substantially/essentially eliminating the contact and the friction. Since such added language is

Art Unit: 3682

more specific than what was originally disclosed, the newly amended claims 1 and 5 are considered to contain new matter.

Response to Arguments

3. Applicant's arguments with respect to claims 1, 2, 5, 8, and 16 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Cable guide tubes that reduce/eliminate friction.

Pickles et al., U.S. Patent 3,851,351 (col. 3, lines 5-12)

Goldenberg et al., U.S. Patent 5,681,131 (col. 4, lines 35-43)

Davidson et al., U.S. Patent 5,636,551 (col. 3, lines 3-15)

Nawa et al., U.S. Patent 4,915,340 (col. 1, lines 34-45)

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3682

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
